It is recommended to the University Association that Professor Brigham be enrolled at any cost. The Star can point to no man who is able to add so much zest to the life of any organization.

The Y. M. C. A. Senate having been auspiciously launched with the assistance and patronage of leading men of the community, it will now rest with the young men for whose benefit it was projected, to keep up the interest by attendance and participation in the proceedings.

Of more importance to Hawaii than anything else in the dispatches received today is the telegram on cable matters. It indicates that the Government over there now proposes to take an active interest in submarine electrical communication. This interest cannot fail to extend to the rich territory in the Pacific, with these Islands willing and ready, Samoa in the prospective and British cable enterprise more alert than ever.

No incident of the Presidential campaign in the United States has excited the widespread interest evidenced in the Bryan meeting within the shadows of Yale. The Star is more than pleased in presenting two accounts from intelligent young men who were on the ground. These letters from the sons of Hawaii's chief justice are really important additions or contributions to the literature of this remarkable political struggle.

A court in Toronto, Ont., gave a decision declaring that a man could be both a citizen of the United States and a subject of Great Britain at the same time. But what are the rights and privileges, exemptions and duties of such a subject? The replies must come from a higher court than Toronto boasts and it is extremely doubtful if the theory of the Canadian court would be fully approved by the crown's legal authorities.

In complete files of the Vancouver papers received here there is not so much as a three line item or note on the approaching elections in the United States. Canada has a sensation and an engrossing public matter all her own. Wonderful to relate, it has been discovered that Laurier's Minister of Public Works has given an imperative order that contracts for Government work and supplies shall go to partisans of the administration. As one of the Canadian papers naively remarks, "this has long been the practice in the United States." The Star now recalls that Mr. Laurier just before going into office visited Chicago. Perhaps he talked to some of the aldermen there. The Star's Canadian exchanges are again Laurier in politics. The likelihood is that his own organs justify the spoils course and cite ample precedent. The virtuous indignation in the papers received is expressed most touchingly.

If it be correct that the United States has been warned off what Russia considers her preserves, then there is soon to come a day of reckoning with Turkey. The Great Republic will not brook interference in the matter of providing protection for her citizens isolated in that terrible European slaughter-pen. And in a firm and aggressive attitude she will have the support of strong and capable allies. But the slightest jar is required to set agog a veritable earthquake of reform and readjustment. There may be talk and continued talk of a Russian and British understanding and a French and Russian agreement, but such projected partnerships will vanish into thin air at the first shot from a white cruiser. And it is presumed that the American commander at the approach to the Dardanelles is as ready to clear decks for action as are usually the captains sent on similar missions. Of course a single vessel would be forced to retire but war would be started. It is not illogical or unnatural that it has probably remained for the United States to cut the puzzling knot in the East.

## BRYAN AND YALE BOYS

RELIABLE ACCOUNTS OF WHAT HAPPENED RECEIVED.

Sons of the Chief Justice Write—Give Accounts and Express Their Own Views—Cool Comment.

One of Chief Justice Judd's sons, a senior at Yale, writes: "Last Thursday Bryan spoke here. A platform was erected on the green near Centre church, from which the 'boy orator' addressed a large crowd. Soon after mounting the platform, it began to crack and part of it gave way, which created consternation among the Bryanites and was an omen of what was to follow. After being introduced Bryan arose amid great cheers—but cheers of derision—and he stood for several minutes holding up his hand for silence—but in vain. It was then that the fellows started the 'Brek-ke-kek'-with 'Gold' and 'McKinley' at the end of the yell—and the silverites on the platform looked mad and Bryan finally grew tired and sat down.

He tried it again and made quite a lengthy speech, but at last gave it up in disgust as the yelling and the noise of a band near by were too much for him. I doubt if he would have been able to speak at all if it had not been for the efforts of several policemen, who ran out several fellows and this rather subdued the rest. The opinions of the press have varied, some have sustained the fellows, others have denounced them. With a few exceptions it was not the best element in the college classes that did the cheering and it is the consensus of opinion among the fellows that there was too much of it done and that Bryan ought to have had more of a show to talk."

Chief Justice Judd's other son writes:

"I may safely say the excitement of the week was the visit of Bryan, the Silverite. A platform by the side of Centre church had been erected and the Green was crowded with an immense throng ready to be 'convinced' by the 'boy orator of the Platte.' With some difficulty I wormed my way through the crowd to a position near the stand. The day was hot and the air in the crowd stifling. Everybody yelled when Bryan took his place. He looked very tired, his hair long and curled about his neck, low collar, low cut vest and large felt hat, like a Westerner. He looked like an actor, especially when he smiled on the crowd—a second class comedian. Do not be distressed about what the newspapers say of the discourteous reception he received from the students. Of course the students were all through the crowd, but they did not cheer for McKinley any more than did the 'townies.' It was some time before it was quiet enough for Bryan to speak and even then those on the outskirts of the crowd could not hear for the noise. He spoke like a man who stuck to a lost cause—because there was nothing else left open to him. Instead of arguing the question at issue, he did his best to excite classes in society against each other. Poverty against Wealth, Labor against Capital. Do you wonder that the Yale men did not cease their 'jolly' and hisses when among the first things he said was 'I have been used to speak to young men who earn their own living, to those who are producers and not distributors of wealth,' and he made it worse later by saying that 'rich men came to college on the ill-gotten wealth of their parents.' Do you wonder that 'Bome howled' and policemen had to be sent among the crowd to quiet it? Bryan made the mistake of trying to speak to students among a mixed assembly. He would have received nothing but courtesy if he had spoken to us in a body by ourselves. He should have made his little speech on silver without trying to convince us that he was advocating a 'good thing' for all our studies in history, both political and economical, refute him. There are some silver men in college and their lives now are wretched."

## THE MATTER OF CABLES

GREAT REPUBLIC NOW WAKING UP ON THE SUBJECT.

Asking for an Injunction to Rest Against the French Company—Exclusive Landings—Chinese Railways.

### A CABLE MATTER.

NEW YORK, Oct. 6.—United States District Attorney Wallace Macfarlane has filed in the United States circuit court a bill in equity in the suit of the United States against La Compagnie Francaise des Cables Telegraphiques and United States and Hayti Telegraph and Cable Co. The bill, which covers forty pages of type writing, alleges that the defendant corporations are combining and conspiring for the purpose of monopolizing part of the trade and commerce between the United States and several states thereof and foreign nations, to the irreparable injury of the people and business interests of this country. An injunction is asked for to prevent the defendant corporations carrying out their unlawful agreement and establishing their connecting cables in the United States.

Atlantic cables are in operation under concession which gave the French company the sole right to land and use them between these places and the United States and run 25 to 60 years. These concessions were obtained between the years 1888 and 1890.

### CHINESE RAILWAYS.

PEKING, Oct. 6.—Consent has been given by the Chinese government for the building of a branch of the Sili-sian railroad across North Manchuria with preemption claims giving China the right of purchasing this branch after thirty years. Permission to construct the branch through Southern Manchuria was refused. Sheng Tatol, director of the railways, will probably obtain a concession for the Hankow-Peking line.

### WATER SLUGS.

Uncanny Things That Come Through the City Mains and Taps.

This morning a slug nearly two inches long by an inch wide was sent to Professor Koebele for identification. It came through a water pipe. The specimen is a mole brown with a white streak beneath the body. Its general makeup suggests the leech, but it is much larger and wider. It is provided with a small mouth and suckers.

Professor Koebele says that several slugs have been sent to him lately, and it appears that they are becoming quite numerous in the valley reservoirs. They are harmless little creatures in the ordinary sense, but would be apt to make one feel very uncomfortable to see one in a glass of water.—Hawaiian Star.

Unquestionably, it would not be a very pleasant sensation to experience something like the above, but you can easily avoid it by using the Gate City Improved Stone Filters.

The filtering medium is natural stone mined from the earth and is unlike any other stone in that it does not become foul. Impurities never penetrate it, but lie on the surface and is easily cleaned and never become cracked or crased by change of temperature.

We have the filters in four sizes, viz.: No. 6, \$6; No. 7, \$8; No. 8, \$10; No. 9, \$12.

The Board of Health will always advise you to drink only pure water, well boiled and well filtered.

## W.W. DIMOND'S

Keeping constantly at it, in bringing fresh goods out to the sunlight, is what draws the crowds of buyers to our store. We always have something new and serviceable to show them, and they generally buy.

We have another supply of the celebrated Premier Egg Cups, in which eggs are cooked and served at table. The annoyance of scorched fingers in opening eggs is avoided, and the unpleasantness of getting aged and odorous eggs in your glass is reduced to nil.

Gentlemen dislike trousers baggy at the knees as much as a lady abhors a last year's hat. The way to avoid having baggy trousers is to use a Trousers Stretcher. Hang up the garments in the stretcher at night and they are perfect in the morning.

Any old thing will kill roaches, but the best article is the Patent Roach Trap we sell. You've been waiting for them.

Another convenient article is the Combination Kitchen Fork, on the end of which is a hood for removing the pot lids. Twenty cents takes one.

We have Cups and Saucers at a dollar a dozen. We have genuine English Decorated Coalport Ware, Cups and Saucers, for after dinner coffee, tea or chocolate, from 75 cents to \$5.80 each. They are beauties.

The Silver White Flame Oil Range is a marvel and sells for \$7. We would like you to examine this.

### FRESH FRUIT

Is scarce between seasons and often unattainable, but the canned goods people have so perfected the process of putting up their ware as to make it almost impossible to tell the fresh from the preserved.

### Evaporated Fruits

are especially good for cooking or pies. A peach roley-poley made of evaporated fruits is equal to the fresh article. Other fruits can be made up into other delicacies. We have CHERRIES, APRICOTS, APPLES, PITTED PLUMS, and QUARTERED PEARS, and they are of a superior grade.

### Canned and Bottled

Fruits sold by us are delicious. The public has learned this and come to us when they wish superior goods at low prices.

### Down East People

Know good things when they taste them. That's why they invented CLAM CHOWDER. The brand we sell cannot be detected from chowder made from fresh clams. It has been served as such, and people who ate it and—where ignorance is bliss it's folly to pay a high price for clams.

## NEW DEPARTURE!

The undersigned beg to announce that on and after

THURSDAY NIGHT, OCTOBER 1ST,

The Unrivalled

Anheuser Busch Beer

Will be served on Draught at the

Hawaiian Hotel.

We quote from a letter of Anheuser Busch Brewing Association, dated Sept. 8th, the following:

Your honorable firm having represented us so many years, we believe it is useless to call your attention to the merits of our article, but we should like to repeat again and call your attention to the fact that ours is the only pure barley malt beer manu-factured, and corn cereals and other adulterants, as well as acids, for the preservation of beer, are unknown in our establishment. With the above you may go before the public and publish the same.

ANHEUSER BUSCH BREWING ASSO.

This beer received the highest awards at the World's Columbian Exposition. No encomium of ours can add to its deservedly high reputation. Its introduction in any and every market establishes it as the favorite. It is without a peer! without a rival! and even without a competitor!

To bring it within the reach of all it will be sold at the prevailing price of 12½¢ per glass. Let everyone get the best for the least money.

Ripans Tabules

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said: "I am 61 years of age, and until I was high, onto fifty years old, I was always well and peart, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Mr. Ripan's medicine. I want you to tell everybody how I got cured, for it is a blessing to humanity." (Signed) L. A. ROCHER.

Ripans Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to the Ripans Chemical Company, No. 10 Spruce st. New York. Sample vial 10 cents.
